Juan Martin Gimenez Yunis

Hi!

PROFILE

Juan Martini is a young boy with 22 years old, from Villa Escolar - Formosa but he is living on Resistencia - Chaco where he is a Front-end developer since 2013 at Globant company.

EXPERIENCE

DEVELOPER UI, GLOBANT, 2013-PRESENT.

He was working on big projects and exigent clients from United States, with different technologies like Php, Js, Css, html but sadly he never had the opportunity to be a expert in one specific language, so that is his goal now, be a JavaScript expert.

EDUCATION

Actually he is reading about Angular.js and React.js in his free time.

He studies in the University (UTN Frre), he only has one subject and he will complete TSP (Technical Superior on programming). Also, he is studying for System Analyst at Siglo 21 University.

At the moment, he is enrolled in two short courses, one in coursera.org - AngularJS by The Hong Kong University of Science and Technology -, and the second one is in edx.org - Introduction to Solar Systems Astronomy -

MORE INFORMATION

When he has time on the weekend, he plays basketball, he love it!! and he loves the Apple products and its beautiful design.
